

Design engineers know each hydraulic lifting application is different. That's why they need a hydraulic lift supplier with the experience and flexibility to solve tough design dilemmas.

- Custom application designs
- Unparalleled safety
- Thorough design testing
- Sturdy fabricated structures to complement each hydraulic lift

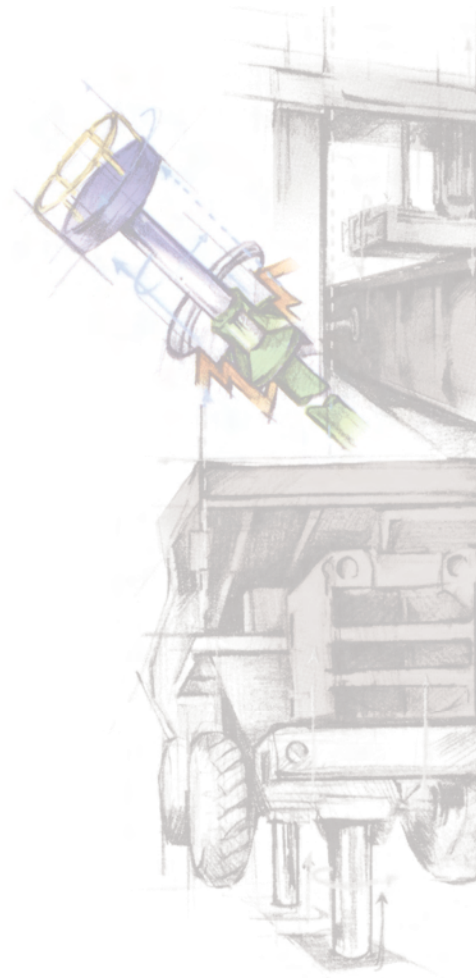

For over 50 years, MARMAC has provided engineers with custom-designed and custom-built hydraulic lifting solutions for a variety of material handling applications.

MARMAC Offers

- Minimum safety factor of 5:1
- Multiple hoists and deep test pits to test field characteristics
- Design and build of fabricated structures to complement hydraulic cylinders

Cylinder Types

- Hydraulic Cylinders
- Single-Acting Cylinders
- Differential Column Cylinders
- Severe Duty Cylinders
- Telescopic Cylinders
- Double-Acting Cylinders

MARMAC

Hydraulic Lift Solutions

MARMAC is committed to understanding each client's industry, application and hydraulic lifting needs. MARMAC's Engineering Services Group works closely with design engineers to understand their unique hydraulic lifting requirements.

MARMAC provides tested, flexible, reliable designs across a wide spectrum of applications, including:

- Manufacturing
- Foundries and Steel Mills
- Kilns
- Shipyards
- Warehousing
- Transportation
- Veterinary/Agricultural
- Theatrical

Specialty Products

- Fork Truck Service Lifts
- Bascule Bridges
- Platform Lifts
- Large Animal Lift Tables
- Stage Lifts
- Jet Engine Lifts

"I highly recommend MARMAC to anyone looking for high-quality hydraulic lift systems. Besides having high quality products, they also have very knowledgeable customer support staff. Because our initial experience with MARMAC was so positive, we now rely on them as our single source for industrial hydraulic lift requirements."

—Todd Campbell
President, TBJ, Incorporated

MARMAC can help you determine your individual hydraulic lifting needs.
